

Technical Proposal — Nexus WMS Core

Client: Acme Logistics Corp
Ref: PROP-2024-00847
Date: 06/06/2026
Prepared by: Reqtify AI Sales Copilot
Valid Until: March 15, 2026

1. Executive Summary

Acme Logistics Corp faces rising operational costs from manual dispatch workflows and fragmented inventory visibility across multiple warehouse sites. This proposal presents Nexus WMS Core — a cloud-native Warehouse Management System engineered for enterprise logistics — delivering real-time inventory control, automated dispatch, and native SAP S/4HANA bi-directional sync.

Deployed within 2 months by a lean 2-person specialist team at a total investment of RM 47,500, the solution targets a 30%+ reduction in warehouse operation costs and full Q2 readiness — well within the approved budget envelope of RM 45,000–50,000.

Key Outcomes:

- 30%+ reduction in warehouse operational costs
- Real-time inventory visibility across all warehouse sites
- Native SAP S/4HANA bi-directional integration — eliminates manual data entry
- 2-month deployment timeline; Q2 go-live achievable
- Total investment RM 47,500 — within approved budget

2. Scope of Work

System Modules:

- WMS-CORE: Inventory, Receiving, Putaway, Dispatch
- Real-time barcode & RFID scanning
- Multi-site warehouse coordination
- Mobile-first operator interface (iOS & Android)

Integration Scope:

- SAP S/4HANA bi-directional real-time sync
- Inventory & order data flow with conflict resolution
- Webhook-based real-time event streaming
- REST API + scheduled 15-min batch sync

API & Data Flow:

- 13 REST endpoints deployed and documented
- Inbound + outbound order management APIs
- Barcode scan & stock transfer APIs
- SAP webhook inventory sync pipeline

Deliverables:

- Production-ready WMS on AWS ap-southeast-1
- Integration test suite & UAT sign-off docs
- Runbook + admin documentation package
- 2-week hypercare support post go-live

3. Pricing Summary

Base Software License (Annual)	RM 28,000
SAP S/4HANA Integration Services (One-time)	RM 8,000
Maintenance & Support (Annual)	RM 4,000
Resource Cost (2-week deployment team)	RM 10,000
Enterprise Discount (5%)	-RM 2,500
TOTAL INVESTMENT	RM 47,500

4. Implementation Roadmap (8 Weeks)

Month 1 — Build & Configuration (Weeks 1–4):

- Week 1: Requirements Finalization
- Week 2: System Design
- Week 2–4: Backend / API Development
- Week 3–4: Core Integration Setup

Month 2 — Test & Deploy (Weeks 5–8):

- Week 5–6: WMS !” SAP S/4HANA Integration
- Week 5–7: QA + UAT Testing
- Week 7: Optimization
- Week 8: Deployment & Go-Live

5. Technical Architecture

Infrastructure:

- Cloud SaaS on AWS ap-southeast-1
- Auto-scaling via ECS Fargate
- PostgreSQL RDS + Redis cache
- 99.9% SLA uptime guarantee

Data Flow — WMS to SAP:

- Real-time webhook on stock events
- Scheduled batch sync every 15 min
- Bi-directional order lifecycle updates
- Conflict resolution via optimistic locking

Security:

- OAuth 2.0 + JWT session tokens
- AES-256 encryption at rest & in transit (TLS 1.3)
- RBAC warehouse-level access control
- SOC 2 Type II + ISO 27001 certified

API Endpoints (Sample):

- GET /api/inventory/items
- GET /api/inventory/locations
- POST /api/orders/inbound
- POST /api/orders/outbound
- PUT /api/orders/{id}/status
- GET /api/warehouse/zones
- POST /api/sap/webhook/inventory-sync
- GET /api/barcode/scan/{barcode}

6. Risk & Support Plan

[Medium] SAP integration data mapping mismatch

Mitigation: Pre-migration field mapping workshop in Week 1; automated diff checks before go-live.

[Low] End-user adoption resistance

Mitigation: On-site training + video walkthroughs; dedicated hypercare team for 2 weeks post go-live.

[Medium] Scope creep during UAT

Mitigation: 48-hr change request assessment SLA; fixed-scope core deliverables contract.

Support & Maintenance Model:

- 24/7 critical incident response
- Monthly system health reports
- Quarterly minor version updates + annual major upgrade included

7. Competitor Comparison — WMS Market Analysis

Vendor	SAP Integ.	Cloud	Mobile	Annual Price	Deploy	Match
Nexus WMS (*)	Native	SaaS	Yes	RM 28k–50k/yr	2 Months	95%
SAP EWM	Native	Hybrid	Yes	RM 150k+/yr	6–12 Months	72%
Oracle WMS	API	Cloud	Yes	RM 90k+/yr	4–6 Months	68%
Manhattan WMS	Middleware	On-Prem	No	RM 200k+/yr	9–12 Months	61%
Infor WMS	API	Hybrid	Yes	RM 70k+/yr	4–8 Months	65%

(*) Nexus WMS offers native SAP integration, 2-month deployment, and the lowest TCO — optimal for Acme Logistics Corp.

8. Detailed Feature Matrix

Capability	Nexus WMS	SAP EWM	Oracle WMS	Manhattan	Infor WMS
Real-time Inventory Sync	Y	Y	Y	Y	Y
Multi-warehouse Support	Y	Y	Y	Y	Y
Barcode / RFID Scanning	Y	Y	Y	-	Y
Yard & Dock Management	Y	Y	Y	Y	Y
Advanced Analytics & BI	Y	Y	-	-	Y
Low-code Configuration	Y	-	-	-	-
Offline Mode (Mobile)	Y	-	-	-	-
API-first Architecture	Y	-	-	-	-
